We Serve Your Industrial Electrical & Automation Needs

We are specialized and having great experience to supply, install, testing and retrofit services for the following electrical component.

Our Services

1. Retrofit Services
2. Panel Fabrication Services
3. Instrumentation Services
4. Calibration And Testing Services
5. Annual Maintenance Services

BAM is well equipped with modern & latest machinery, qualified personals having good expertise in control panel designing, manufacturing, developing, testing & commissioning for all types of electrical panels.

- Power Control Center (PCC Panel)
- Motor Control Center (MCC Panel)
- Auto Main Failure Panel (AMF Panel)
- LT Distribution Panel (LDB Panel)
- Lighting Distribution Board (LDB Panel)
- PLC Base Automatic Control Panel
- Remote Control Panel
- Variable Frequency Drive Panel
- DG Synchronizing Panel
- Automatic Power Factor Control Panel
- Auto Load Sharing Panel (ALS Panel)
- Customized Panel

Molded Case Circuit Breaker (MCCB)

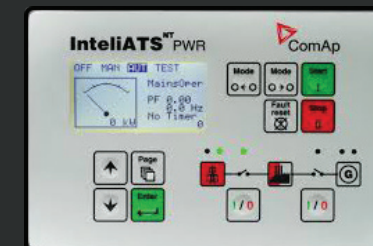

Air Circuit Breaker (ACB)

ATS Systems & Changeover

Metering Devices

Variable Frequency Drive (VFD)

RETROFIT SERVICES

We replace a wide range of MCCB, ACB and Switch Gear utilizing the best and modern devices the market has to offer today. If you have a particular preference for the new MCCB, ACB and Switch gear then we can of course incorporate that into the retrofit.

PANEL FABRICATION AND INSTALLATION

We have good experience in the field of electrical & electronics control system, build new and retrofit and refurbish existing control panels. We are always up to take a look at your panel systems requirement.

INSTRUMENTATION SERVICES

We have vast experience in the field of Automation & Instrumentation. We can configure, integrate and repair various type of PLC's, Touch screens, SCADA Systems, Pneumatic, HMI, Hydraulic and Motion control, process control systems.

CALIBRATION AND TESTING SERVICES

BAM have expertise in Testing & Calibration for Low Voltage and Medium Voltage Systems. Well versed with Inspection & Testing for Transformers, Switch Gears & Generators. Our team executes each project with efficiency and precision.

ANNUAL MAINTENANCE SERVICES

BAM is a renowned company that has been offering quality maintenance services for a wide range of industry. As your services provider business partner, we'll keep monitoring your equipment performance to keep it up to dated and functional 24 / 7.

EQUIPMENTS MAINTENANCE SERVICES That Add Life to Your Equipment

Firefighting Systems
Overhauling maintenance, repairing and testing for all type of firefighting pumps.

Transformers
Overhauling maintenance, repairing and testing for all kind of transformers.

Compressors
Electrical and mechanical operation & maintenance works for all kind of compressors.

Welding machines
Electrical and mechanical operation & maintenance works for all kind of welding machines.

Alternator Overhauling
repairing and rewinding for all kind of generators

Engine Overhauling for all types of DGs including original parts supplies

Genset Enclosure
fabrication & installation with sound db less than 80

Configuration and programming for all kind of DG modules

Annual maintenance services and 24/7 technical support

PREVENTION IS BETTER THEN LOST PRODUCTION

BREAKDOWN SERVICES

Bam is always there to escort when your systems fail and needs to be fixed right. We support you with our 24/7 breakdown services, inspect your systems for failures and put them in right & working condition.

INDUSTRIAL EQUIPMENTS

We're capable in testing, repairing & installation of industrial machines like Hydraulic plate rolling, banding & pressing machine. We can find & fix faults in industrial machines control cards, pcbs, wiring, lines, sensors.

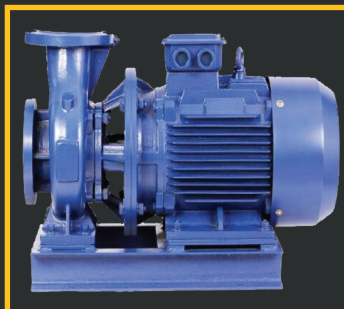

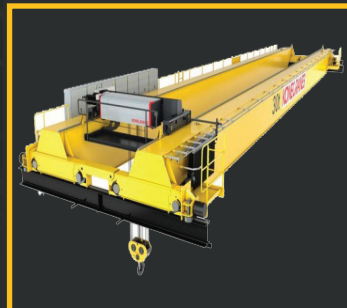

CALIBRATION SERVICES

We have repairing experiences in the field of plc's, touch screens, scada/hmi systems, pneumatic, hydraulic and motion control, process control systems and other automation solutions.

TRADING

We strive to be the leading supplier of high quality product selected electrical items, electronics parts and generators spare parts, we provide superior addedvalue products and we are very committed to focus on it.
